APPENDIX A
Notice of Intent (NOI) Information Sheet
NPDES General Permit IDG-37-0000
Small Suction Dredge

US EPA

MAY 01 2013

Applicant (Owner/Operator): Fred Kreid

Owner Name: Fred Kreid

Winter Address: 1015 E. Fiedler Rd.
Pottsville, MO 64301

Summer Address ☒ Check if same IDAHO OPERATIONS OFFICE

Telephone Number: (208) 875-1527 Email address:

Operator Name ☒ Check if same as owner Fred Kreid

Operation Name (if applicable):

Size of Suction Dredge Nozzle: 4" (5 inches or less)

Equipment rating: 6.5 hp (15 hp or less)

Land Management Agency: Forest Service

Contact: Clint Hughes
Phone number: 208-983-5146

Permit Part I.D.1. requires copies of certain land management approvals be submitted with the NOI.

Permit Part I.E. requires that you contact the Idaho Department of Water Resources to obtain a permit and determine whether additional restrictions may apply.

Waterbody Information

Waterbody*	Nearest Town	Latitude	Longitude	Dates of Operation	Hours of Operation**
Longsight	Pierce	T37N	R7E	7/29/13 8/15/13	5hr (90hr)

*Include a map noting each location.

**An NOI is required on an annual basis for facilities on Mores, Grimes and Elk creeks along with the number of dredge hours planned (See Permit Parts I.G.1. and II.B.3.)

Printed Name: Fred Kreid

Signature: Fred Kreid

Date: 4/29/13

Certification: I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

water N NAHKOHE MORNING STAR / OWANCHAYA
T37N R7E Sec. 6
Clearwater County 200 Acres

Land Status: Clearwater N.F.

USGS Topo: Larch Butte

es. Road DIRECTIONS: NAHKOHE MORNING STAR - From Pierce, ID, take French Mountain Road #250 for approximately 17 miles. Road is paved all the way. Claim is marked at roadside, both ends.
OWANCHAYA (NORTH OF NAHKOHE) - Same as NAHKOHE, but go approximately 19 miles. Claim also marked at roadside, both ends.

CEPT B MINING COMMENTS & MEMBER REPORTS: Claim accessible in winter BY SNOWMOBILE.
claim, need ONLY. Water year round. 4" dredge works best. Bedrock one to six-feet down. Need member reports.

TO:

Idaho Panhandle NF
3815 Schreiber Way
Coeur d'Alene, ID 83815

This serves as my notice to the Forest Service of my intentions to conduct mining activities on NFS lands administered by the Coeur d'Alene River Ranger District. I am proposing to mine in the following AREA(s):

Drainage(s): Orogrande
Section ~~37N~~ 6 Township: 37N Range: 7E

Claim # (if applicable):

Other Description: Maahoke Morning Star
Lowanchays (claim name)

I am proposing to do the following MINING ACTIVITIES (describe in detail – attach an extra sheet if necessary):

Suction dredging with 4" line
dredge, and following rubble
off EPA and IDWR.

I would like to work on the following DATES: July 29, 2013 to Aug 15, 2013

I will use the following ROUTE/ROADS to access my project area:

French Mt. Rd. out of Pierce

I will use the following VEHICLES:

1995 Dodge pickup

SUBMITTED BY: Fred Kreid
Signature

ATTACHMENTS:

- (1) map of project area / claims showing access route
- (2) IDWR Suction Dredge permit signed copy (required if suction dredging)

RE: Idaho Recreational Mining Authorization (LETTER PERMIT)

Gary Spackman
Interim Director

Dear Recreational Miner:

The Idaho Department of Water Resources (IDWR) hereby issues an expedited LETTER PERMIT. This LETTER PERMIT allows the Permit Holder, indicated below, authorization to operate recreational mining equipment to alter a stream channel in accordance with the Stream Channel Alteration Rules (IDAPA 37.03.07 – Rule 64) and the 2013 IDWR Instructions for "Stream Channel Alteration by Recreational Mining Activities."

This Letter Permit must include information requested on page 2, Section A or Section B.

Rule 64 (attached), "Standards for Suction Dredges and Non-Powered Sluice Equipment", provides minimum standard conditions for this LETTER PERMIT. The authorized holder of this LETTER PERMIT may operate recreational mining equipment in stream channel segments of the state designated "OPEN" as described in the 2013 IDWR Instructions referenced above. The instructions are available at IDWR's website as follows: <http://www.idwr.idaho.gov/RulesStatutesForms/StreamChannel/StreamChannelForms.htm> Special Conditions listed below also apply. Failure to adhere to these requirements can result in legal action as provided for in section 42-3809 and 42-1701B, Idaho Code. **Effective 2013, the US Environmental Protection Agency (EPA) will require an NPDES permit for small scale suction dredging in Idaho.** The EPA should be contacted on their requirements in Idaho (see pg. 1 of the IDWR Instructions for EPA contact information).

SPECIAL CONDITIONS – IDWR LETTER PERMIT:

1. Permit holder will only work on a stream segment listed as OPEN in the 2013 IDWR Instructions.
2. This permit does not serve in lieu of other permits that may be required by federal or other state government agencies or in any way constitute an exemption of other permit requirements.
3. Permit holder shall obtain authorization from the land owner or land manager to access the property where the mining operation is located and determine if other permits are required. A copy of this Permit should be submitted to the appropriate federal, state or tribal land manager if the mining operation is located on federal, state or tribal land.
4. This permit may be canceled at any time to minimize adverse impact on the stream channel.
5. Permit Holder must have a copy of their permit indicating them as the Permit Holder when operating equipment and evidence that the required fee has been paid. Permit holder shall make this permit, including page 2, available for inspection at all times.
6. This permit does not constitute any of the following:
 - a. An easement or right-of-way to trespass or work upon property or mining claims belonging to others.
 - b. Responsibility of the IDWR for damage to any properties due to operations of Permit Holder.
7. All fuel, oil, and other hazardous materials shall be stored and equipment refueled away from the stream channel to ensure that a spill will not enter the waterway. No petroleum products shall enter the stream when servicing the equipment.
8. This permit shall expire March 31, 2014.

Sincerely,

Aaron Golart, State Coordinator, Stream Protection Program

Permit Holder's Name: Fred Kreid Idaho Resident: Yes X No
Address of Residence: 1015 E. 1st St. City: Boise State: ID Zip: 83855
Email: Phone: 208-875-1527
Signature: Fred Kreid Date: 4/8/13
Certification: I certify under the penalty of law that I have read and understand the IDWR document 2013 instructions for "Stream Channel Alteration by Recreational Mining Activities" and will conduct my operations in compliance with these Instructions, all rules, and other requirements. In addition, I certify that I have provided a copy of this LETTER PERMIT with the appropriate fee to IDWR.

FOR OFFICIAL USE ONLY (\$10.00 fee for Idaho residents, \$30.00 fee for non-residents)

Fee \$ 10- Received by BT Date 4/8/13 Receipt No. N029736

Additional Documentation Form for Recreational Mining LETTER PERMIT
(April 1, 2013 – March 31, 2014)

Section A OR Section B must be completed and submitted with your LETTER PERMIT to IDWR. A copy of this page must be kept with the LETTER PERMIT.

Permit Holder's Name: _____

Section A: Complete this section for mining operations within Open Streams in the Clearwater River or Salmon River drainages, or in select streams/ in the Boise River drainage identified in the "Instruction" booklet.

1. Identify the stream segments you intend to recreationally mine. **Include a map** indicating your planned area of operations for each site where recreational mining would occur (refer to p. 17 of the 2013 instructions).
2. Indicate the number of days you anticipate operating in each stream segment identified.

Stream and specific location where you will operate (for open streams in Clearwater and Salmon River drainages, and select streams in Boise River drainage – see Attachment F of Instruction Booklet)	PLS Location			Number of planned days in stream
	TWN	RNG	SEC	

Section B: Complete this section for mining operations within Open Streams in all drainages other than those listed in Section A.

Please identify the drainages and stream segments in which you intend to dredge by filling in the table below using the name of the drainages and open streams found in Appendix F of the 2013 Instructions.

(Example → Drainage: Spokane River Stream: Prichard Cr. & tribs. above Granite Cr.)

DRAINAGE	STREAM OR STREAM SEGMENT
Orogrande	North fork PW
French Cr.	Clearwater
Palouse River	

IDAPA 37.03.07 (RULE 64).

064. SUCTION DREDGES AND NON-POWERED SLUICE EQUIPMENT (RULE 64).

01. Standards for Suction Dredges. The following standards shall apply only to uses of suction dredges with nozzle diameter of five (5) inches or less and rated at fifteen (15) HP or less and non-powered sluice equipment moving more than one-quarter (1/4) cubic yard per hour. (7-1-93)

02. Operating Permit. A permit for the operation of a suction dredge may authorize the use of the dredge within a drainage basin or a large portion of a drainage basin except as otherwise determined by the Director. (7-1-93)

03. Mechanized Equipment Prohibited Below High Water Mark. There shall be no use of mechanized equipment below the mean high water mark except for the dredge itself, and any life support system necessary to operate the dredge. (7-1-93)

04. Operation of Dredge. The operation of the dredge shall be done in a manner so as to prevent the undercutting of streambanks. (7-1-93)

05. Permit Required for Non-Powered Operation -- More Than Five People. A permit shall be required for any non-powered operation in which more than five (5) people are working the same area. (7-1-93)

06. Permit Required for Non-Powered Operation -- More Than Thirty-Three Percent of Stream Width. A permit shall be required for any non-powered operation if the disturbed area exceeds thirty-three percent (33%) of the stream width at the mining location. (7-1-93)

07. Limitation of Mining Sites. Only one (1) mining site per one hundred (100) linear feet of stream channel shall be worked at one (1) time unless waived by the Director. (7-1-93)
